#### NEW YORK WHEAT MARKET.

#### Considerable Excitement on 'Change -A Very Feverish Feeling,

New York, August 19.—The wheat market was very much excited this morning. At the first call the feeling was feverish and very irregular. At times some brokers were bidding 1(4) te more than the asking price. The ported for the first hour and a half of business, over 11,000,000 bushels having changed hands; of this, September was dealt in most freely, alliveries received a fair share of attention. The tendency is to a higher basis. Prices are up fully 1@1½c with foreign shorts covering quiet freely, mainly for London and Paris accounts. Stronger cable advices and the recent large export purchases add strength to the situation.

The President and Mrs. Folsom troiled on one part of the pond under the council to devise a p'an of action. One of them picked up the supposed infernal machine and suspiciously applied it to his ear to ascertain whether he could detect any ticking in the interior. The rest of the party stood near by it in suspense. The whole formed a very dramatic scene. A Rich Joke on to minimate.

Washington special the New York Star: A rich joke on se Senate has just come to light. I has been the fashion of the Senate committees to attempt to discredit the sincerity and good faith of the Periodet in the senate to the senate of the senate of the senate of the senate to attempt to discredit the sincerity and good faith of the Periodet in the senate of the s and good faith of the President in his removal or suspension of Republican officials. They have studiously tried to make it appear that the President had made removals for party purposes only, and in disregard of his avowed purposes and pledges. In order to give the suspended officials a "send off" with a fine certificate of character and disloma of matteriors the sense. and diploma of martyrdom, the committees have in numerous cases made reports and spread them upon the ournal of the Senate, reciting, in substauce, that the suspended official was a faithful one and was suspended for political reasons, and for no cause relecting on his character or conduct,

personal or official. A case has come to light which has very much shaken the value of these indorsemen's. Away back in the early part of Mr. Clevelaud's administration he had appointed one Alonzo P. Sharp postmester at McCook, Neb. Sharp was appointed as a Democrat. But he followed the bad precedents of too many Republican officials and was soon short in his accounts. Thereupon Mr. Cieveland promptly suspended him and nominated one Thompson to succeed him. The papers were sent to the Senate, showing that Sharp was short in his accounts, and was no longer fit for public trust in a public

With these facts and undisputed proof of their truth before them, the Senate committee gravely report to the Senate the following, which will be found in the Congressional Record of

June 3d, page 5387: On the 11th day of February, 1888, the President nominated to the Senate F. A. Thompson to be postmaster at McCook, Neb., vice A. P. Sharp, suspended during the recess of the Senate. The suspension seems to have been made for political reasons only, and the committee has not found anything in the case reflecting upon the personal or official character or conduct

of the suspended officer.
So Mr. Sharp, who was kicked out for a Democratic thief, finds himself immortalized in the Senate record as a Republican martyr. No sooner had he been proved a rascal who ought to be turned out than the Republican Sena-tors claimed him as their own and clapped on his brow the martyr's crown. Although a proved defaulter, repud ated by his sureties, the Republican Senators found nothing in his reflecting upon his personal or official character or conduct."

#### Prof. Gray's Telephone Patent,

Washington special to the St. Louis Globe-Democrat: Considerable interest was manifested in the weekly list of patents that were issued today, as some had positively asserted that the name of Prof. Gray would be found thereon as the patentee of the tele-phone. The name was not there, nowever, and when Acting Commissioner Vance was questioned about it he expressed entire ignorance, and eaid that it seemed to him next to im-

can be issued to Gray. He said:
"When a patent is once used it is final. There is no annulling it, so far as this office is concerned. Neither can a patent for the same thing be issued to two persons. There seems to be a great deal of misunderstanding on this point."

"How is a man who has been chested out of his patent to have his remedy unless this office is authorized to correct its own mistakes?"

"His remedy is in the courts. When I was in Congress I introduced a bill making it the duty of the Attorney General to proceed, in the name of the United States, to annul any patent that he may feel reasonably satisfied has been obtained by fraud. On ac-count of this bill my name was mixed up with the Pan-Electric matter, and it was said that I was in their inter est. There was nothing in the world farther from the truth. The facts is, I never knew anything about the Pan-Electric matter."

"What benefit would it be to Prof. Gray to have this caveat renewed?" None that I can see. Why, this office is exceedingly careful about even so small s matter as the addition of the most trifling point to a patent.
After it has been issued a man who After it has been issued a man who has obtained a patent may say we have omitted some point. We make him prove this very carefully before we insert the new point. If we did not do this we would constantly be in trouble, for a man might go out and see something that he desires to embedy in his natant and come in here body in his patent and come in here and insist that he had invented it."

"But Col. Casey Young is reported as saying that Prof. Gray's cavest has been reinstated."
"Col. Young is well posted on the subject, and if he says so he doubtless has good reasons for it. If it was done the Commissioner did it, and I know nothing of it.

Congress appropriated a specific amount of \$15,000 for the purpose, and Mr. Miller be-lieves that the fo'al increase of expense will be something more than \$50,000; but he thinks he will have no difficulty in covering all needed expenditures until after Congress has met, when any deficiency can easily be cowered by a new appro-priation. Designs for the stamps have

not yet been adopted, although several suggestions have been made that the principal feature in the stamp should be a Durham bull. Mr. Miller says ha has come to no conclusion, bowever, on any feature of the design. He thinks there will be very little trouble in putting the law into practical working shape, and contemplates at present the employment of but few additional deputy collectors, excepting at places where there are eleman-gaine manufacturers. He expects the collectors to do all that the law may require in its enforcement without any increase in their force. In Chicago he will probably anthorize the appointment of two or three additional deputies and may possi-bly employ a chemist to be stationed here in Washington and perhaps an

assistant at Chicago. Beyond this he thinks the present clerical force in his office and the force of deputies and agents scattered over the country will be quite sufficient to coforce the law. His estimate is that it will yield pretty close to \$1,000,000 during the present close to \$1,000,000 during the present fiscal year, thus neiting to the covern-ment a clear recenue of something than \$900,000 over all increased

#### THE CHICAGO ANARCHISTS. The Jury Believed to Have Arrived

CHICAGO, ILB., August 19 .- At 10 o'clock it is learned that the jury has returned to the hotel. This is believed to indicate that a verdict has been found, as otherwise the jury has been instructed by the Court not to leave their room in the Criminal Court building. From a bailiff it is learned that the jury were ready to return to their hotel at 8 o'clock this evening. It is conjectured from this that with the possible exception of Neebe the prisoners will fare alike, the jury not having taken the requisite time to discuss their cases separately to the ex-tent of affixing different penalties.

At 10 o'clock the lights in the rooms occupied by the jurymen were put out, and the bailids in charge said they had retired for the night. This seemed to corroborate the previous impression that a verdict had been found, but absolutely nothing as to its

nature has leaked out. 2:30 s.m.—The Daily News this morning says in its headlines: "Six Anarchists to Swing! The Jury Said to Have Decided that Spier, Parsons, Lings, Fischer and Engel Must Hang! Schwab and Neebe Seventeen Years
